Counting at the Market

Barra is at the fruit stand! Count each kind of fruit, then write the number in the box.

Bananas

Oranges

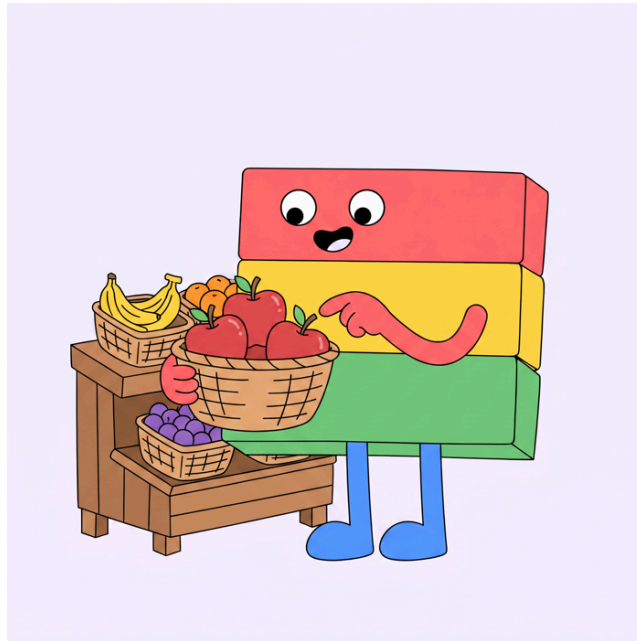

Apples

Grapes

More or Less?

Look at Barra's baskets again. Circle the group with MORE, then circle the group with FEWER.

Bananas

vs

Grapes

— which has MORE?

Apples

vs

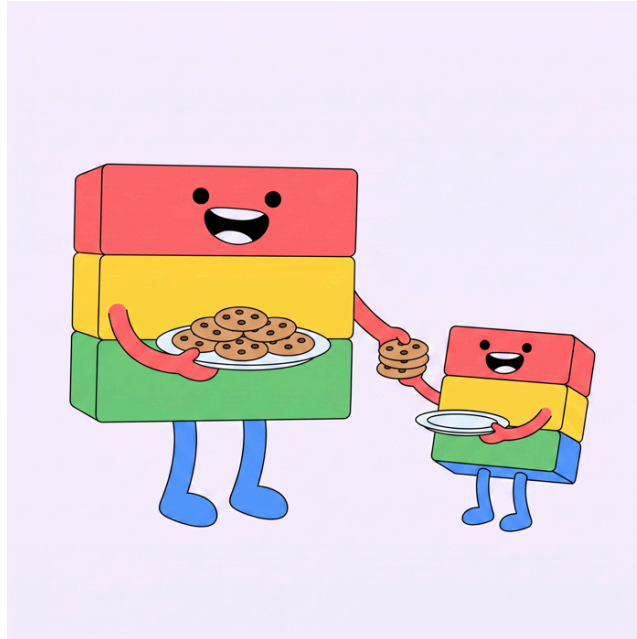

Oranges

— which has FEWER?

Cookie Number Bonds

Barra has some cookies to share. The WHOLE plate splits into two PARTS. Fill in the missing number.

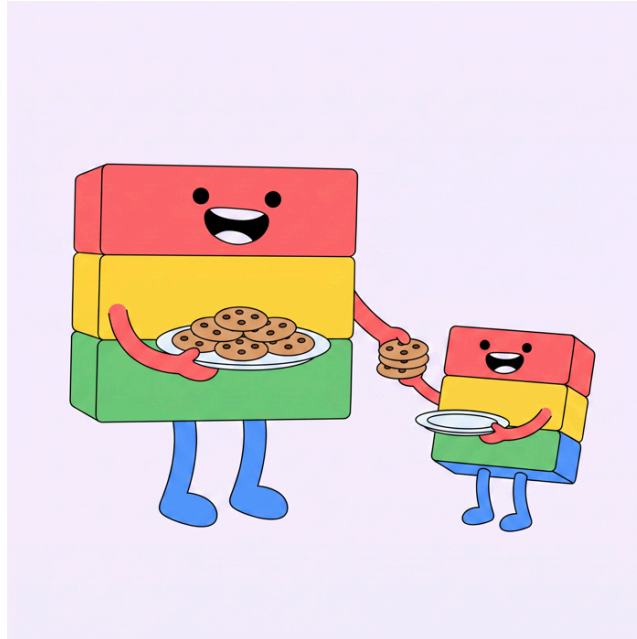

$$\boxed{7} = \boxed{4} + \boxed{?}$$

Sharing Equally

Barra shares 6 cookies equally with a friend. Draw the cookies split into two equal groups below.

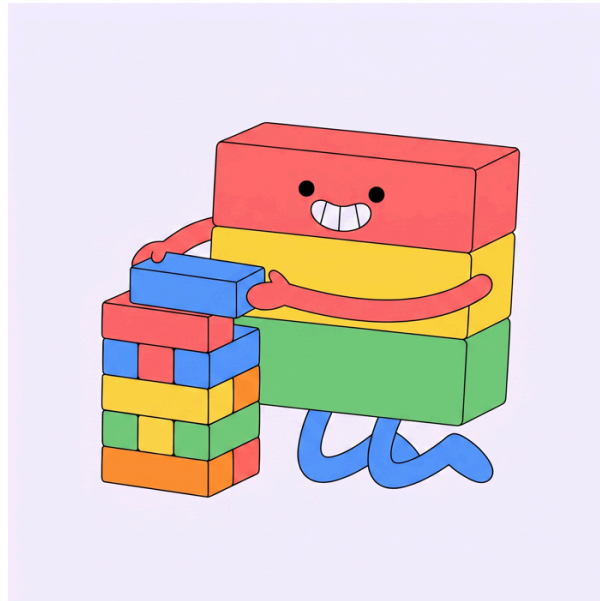

6 cookies ÷ 2 friends = ____ cookies each

A large dashed green rectangular box for drawing the cookies split into two equal groups.

Meet the Bar Model!

A bar model uses a rectangle bar to show a number. A longer bar means a bigger number!

5

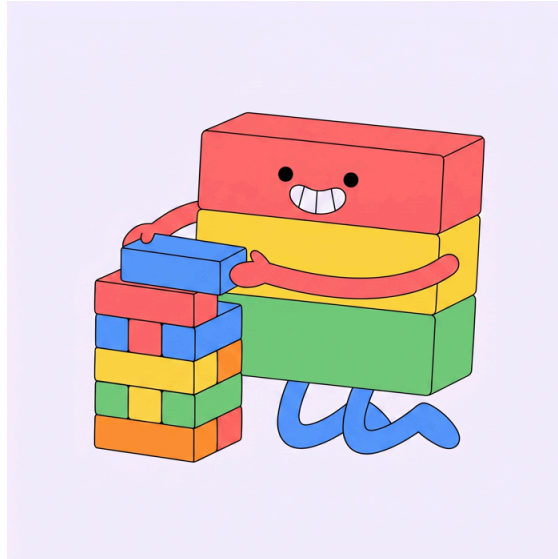

3

Color one bar for the number 4, and one bar for the number 7. Which bar is longer?

Bar Model: Addition

Two parts join to make the whole. Fill in the missing number.

Whole = ?

6

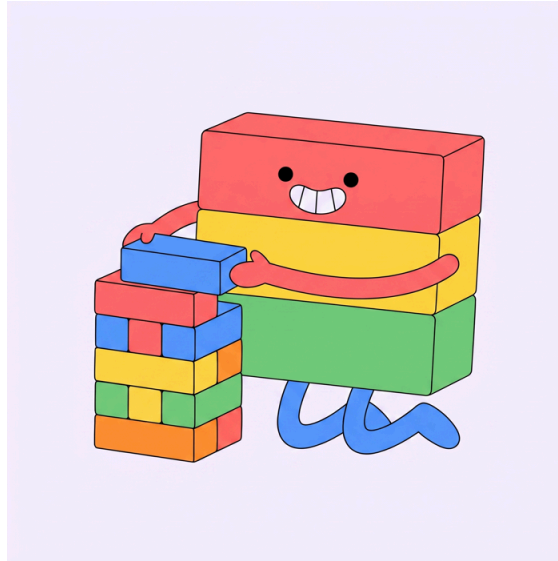

4

$$6 + 4 = \underline{\quad}$$

Bar Model: Subtraction

The whole splits into two parts. Take one part away — what's left?

Whole = 9

6

?

$$9 - 6 = \underline{\quad}$$
